Honoro Film is a film and television production company founded in 2006 by director Gabriele Fonseca.

The Honoro Film activity is directed on one hand to television and cinema, and on the other to business and the web. A package of customers that, among others, lists some of the most important and innovative companies in their respective fields, ranging from entertainment to finance and industry. Honoro Film builds an engaging and effective message in accordance with its clients needs, which adapts to the evolution of the visual and technological language, combining emotion and passion in every field of communication.

Honoro Film produces TV commercials, documentaries, corporate videos and more. From this year it has increased its productions with the i-Books, multi-touch books, the most significant new feature of modern publishing. Honoro called its line: H-Books.
